

Breakfast with the Animals

Enjoy a delicious continental breakfast while you learn about one of your favorite animals here at Maybury Farm! Your hour long adventure starts early at 9am - before public visitation starts at the farm.

During breakfast at the farm, one of our farmers will personally introduce you to the animal of your choice - you'll learn fun and interesting details about the animal's daily lives, the important role they play at a farm, and how they eat, work and play - all from the farmers who know them best!

After breakfast, the farmer will give you a chance to interact with the animals - you may even have a chance to feed or groom them! Some animal activities will require you to meet them in their farm enclosures. Be ready to take lots of pictures!
